

Create your own Theme Park

1. What could your theme park be called?
2. What different rides would you have there?
3. Would it have a theme like an animal theme park, a scary theme park, an out of this world theme park or even an underwater theme park?

You can design this however you would like to. You could create a map of your theme park and design where you would like the rides to be.

You could design this on a computer and use different shapes on different documents like paint or Microsoft.

You could create this using different objects in your house to create different rides or games that could be played there.
