

Giraffe Handprints

You will need:

- Paper
- Poster paint in yellow and brown OR pencil crayons

Instructions:

1. Print a single yellow handprint OR draw around your hand.
2. The palm forms the body, the fingers the legs and the thumb forms the tail.
3. Use the side of the hand to print the neck and add a fingerprint for the head.
4. When dry use brown fingerprints to make the giraffes spots, not forgetting a fingerprint for the end of the tail.

Why not ask everyone in your house to make one and you will have a giraffe family!

Have fun KS1 ☺
