

Week Commencing 9<sup>th</sup> November 2020

**Overall Objective :**

Create and test a simple programme, understanding that it follows

simple instructions.

Predict the outcome of a simple program.

Debug a simple program.

**Learning Outcomes :**

I can follow simple programming instructions.

I can move objects following instructions.

### Computing Activities using PurpleMash

This week, log on to Purple Mash, using your username and password.

Using the 2Code button, complete an activity from Chimp, Gibbon and/or Gorilla!

Once you have completed the activities, have a look around the different areas and play some more activities but of your choice!

Have fun!
